

Grab the opportunity to see how waste is treated in your area

Come along to view either Bolton Thermal Recovery Facility where waste is burned to create energy *or* to see an active landfill site (Pilsworth in Bury) and see how the gas produced is used to generate electricity. Find out what else is happening with waste in Greater Manchester and how we use education to support people to recycle more.

Visit opportunities and times:

Bolton Thermal Recovery Facility (Raikes Lane, Bolton)

Monday 16th August 2010. Book onto either the 2pm tour or the 6pm tour or
Thursday 26th August 2010. Book onto the 11am tour or the 2pm tour
